

Experience...

a fragrant prairie on a July day... the green of tall plants...waves of heat, and a breeze; the hum of bees, the flutter of butterfly wings over yellow, white, blue or pink flowers...

The dappled shade of a green woodland... mossy ledges of gritty gray rock ...the random music of unseen birds...

The spring songs of frogs in a quarry, like an orchestra tuning...

The dim light of a cool cave... the muffled voices of children awed and excited as they experience the world of nature below.

Ledge View Nature Center is experienced by the 12,000 school kids who visit each year. They snowshoe, collect maple sap, search for fossils, play outdoor games, climb the tower and crawl in the caves.

It is a place for everyone, child and adult, to enjoy the world of nature and to learn through the unique exhibits and varied programs in the nature center.

These outstanding educational and environmental experiences exist because of the dedicated work of the naturalists, Volunteers, and supporters.

Please join them and help secure the future of this very special place in nature through the Endowment Fund.

The primary purpose... of the endowment is to use income from the fund for special projects at the nature center, for park expansion and for staffing needs beyond the county-provided budget. Presently the fund provides salaries for two part-time positions: Volunteer Coordinator and Intern Naturalist.

Friends of Ledge View Nature Center Endowment Fund... is granted 501(c)3 tax-exempt status. The fund is affiliated with and managed by the Community Foundation for the Fox Valley Region.

Please use this form for your gift, or to request more information.
