FREQUENTLY ASKED QUESTIONS

Q: Where can I find guidance about mass gatherings?

A: Interim guidance on large gatherings can be found on the [DHS COVID-19 Avoid Illness Page](#). At this time, DHS does not advise large gatherings, and there is no projected timeframe available as to when this advisory would change. Public health experts agree that large gatherings of people in sustained, close contact greatly increases the risk for spread of the virus among those who attend the events and to the communities these individuals return to after the event. The communal nature of such events makes it especially challenging to accommodate the physical distancing and sanitation recommendations required to slow the spread of disease. This includes but is not limited to fairs, festivals, parades, and conferences.

Calumet County Public Health also offers guidance on mass gatherings in our [Reopening Calumet County Guide](#). **The county is recommending limiting mass gatherings to 50 individuals or less.**
