

## Health and Human Services

### Calumet County Public Health Covid-19 Status Update

June 8, 2020

#### CALUMET COUNTY COVID-19 CASES AND DATA DASHBOARD

NOTE: Dashboard does not include data from the portions of City of Menasha or City of Appleton that are within Calumet County. Those cities have their own Public Health jurisdictions separate from Calumet County Public Health.

- [Desktop Version](#)

#### WHAT'S NEW

- Summer FAQs about staying safe and healthy are now available on the DHS [Avoid Illness](#) webpage.
- [Wisconsin State Park Campgrounds Opening June 10.](#)
- CDC has updated guidance for [schools and day camps](#) and [interim guidance for bars and restaurants](#) based on a 3-step approach to reopening.
- Guidance on adult day services, care centers, programs, and adult pre-vocational programs has been posted to the [DHS COVID-19 Long-Term Care Facilities page](#).
- Guidance on beaches has been posted to the [DHS COVID-19 Community and Faith-Based page](#).
  - Recommendations are organized for beach operators and the general public. The guidance is intended to support enjoyment of beaches with information about how to reduce exposure to COVID-19. However, if beach operators cannot maintain a safe environment by ensuring physical distancing among beachgoers, DHS recommends that the beach close to the public.
- Employer and Business Toolkit now available on the DHS [Businesses, Employers, and Workers webpage](#).

#### FREQUENTLY ASKED QUESTIONS

**Q: What will a contact tracer ask me?**

A: Fighting COVID-19 requires a multipronged approach, which includes testing and a quality investigation or “tracing” program. Calumet County Public Health has registered nurses and a public health educator leading the COVID-19 disease investigation and follow-up process. We have also trained additional professionals to assist with contact tracing.

Here's what you can expect if you get a call from a nurse or contact tracer/disease investigator from Calumet County Public Health.

**If you are symptomatic and get tested, or you are named as a “close contact” to someone who tested positive, we may ask:**

- Are you a health care worker or first responder?
- Do you live or work in a congregate setting, which is a large setting where many people are close? Examples include a correctional facility, dorm, group home, nursing home, homeless shelter, food processing plant, multi-family household, multi-generational or high occupancy household.
- Do you have any underlying health conditions that put you at higher risk? This could include chronic lung disease, diabetes, severe obesity, cardiovascular disease, chronic renal disease, chronic liver disease, immunocompromised or pregnancy.

**If you test positive, we may also ask you about the following:**

- Occupation and workplace, if employed.
- Last day worked
- What day your symptoms began
- Have you been to community settings where you may have exposed others
- Contacts: Identification of close contacts exposed to the virus is one of the important components of the case interview.
- Total number of people living with you
- Any other people in close contact, including coworkers and intimate partners. For each close contact, we will need full name and other names they go by, phone number, email address, and address. If no other demographic info is available, do you know a social media username (ex: Twitter handle).
- Setting where exposure occurred (home, school, day care, workplace, place of worship, shelter, hospital/medical care, travel or transit, retail setting)
- Date of most recent exposure and duration of exposure in minutes

We **WILL NOT** ask for your social security number or bank account information. Please be aware that each situation is unique and additional information may be requested by our staff if needed.

## **OFFICIAL WEBSITES TO ACCESS STATE, REGIONAL, AND COUNTY DATA**

- [Wisconsin COVID-19 cases mapped by County](#)
- [Wisconsin DHS COVID-19 State and County summary data](#)
- [Wisconsin DHS Facility Investigations by region and county](#)
- [Wisconsin Hospital Association \(WHA\) COVID-19 hospitalization data by region](#)

- List of Previous Press releases from [WI Department of Health Services](#)
- List of Previous Executive and emergency orders from [WI Department of Health Services](#)

## REMINDERS

- **Call your healthcare provider before going into a clinic if you are experiencing mild to moderate symptoms of COVID-19.**
  - This will allow them to provide guidance, prepare ahead if you need to be seen, and minimize risk to others.
- **If you have any immediate questions, please call the United Way's Resource Line to speak with a trained specialist. It is available 24/7 for non-emergency questions about COVID-19 and referrals to local health and human services.**
  - Dial 211 on your phone
  - Text "COVID19" to 211-211 to receive links to CDC information.
  - Visit <http://211.org/>
  - Or contact Calumet County Public Health during business hours (Monday-Friday; 8:00 AM - 4:30 PM) at 920-849-1432.
- Visit the [Calumet County COVID-19 webpage](#) and scroll down to the 'Resources and FAQs' tab for a variety of helpful resources regarding COVID-19.
